

9 MORE IDEAS TO MAKE KOWLOON EAST SMARTER.

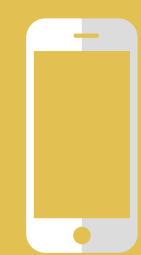

POSTER DESIGNED BY MARINA LOPEZ AISA
IDEA PROJECT BY GROUP 13

BIKE-SHARING PROGRAMS

like in Paris, Washington, D.C. or Barcelona.

MOBILE PAYMENTS EVERYWHERE

For food, apparel and public transportation.

PARKING APPS

Parking apps that show drivers where the nearest available parking spot is. These will save commuters time, gas, emissions and money, while also easing the flow of traffic.

CITY GUIDE APP

City guide app with information about museums, parks, landmarks, public art, restaurants and real-time traffic data.

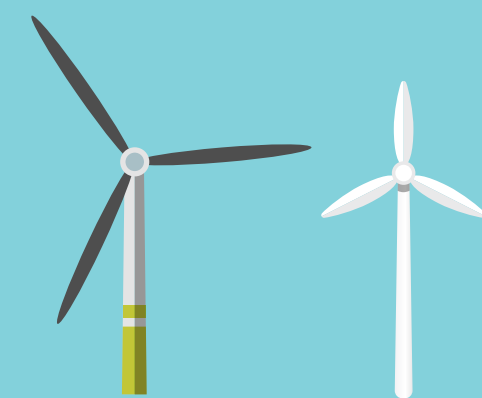

EMERGENCY ALERTS APP

App or social media-based emergency alert and crisis response systems — every citizen should have access to vital information. Whether it's an alert about a crime that just happened or advice for a storm approaching the city.

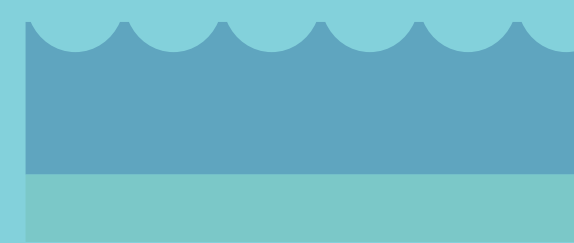

POLICE FORCE MONITOR

Police forces that use real-time data to monitor and prevent crime.

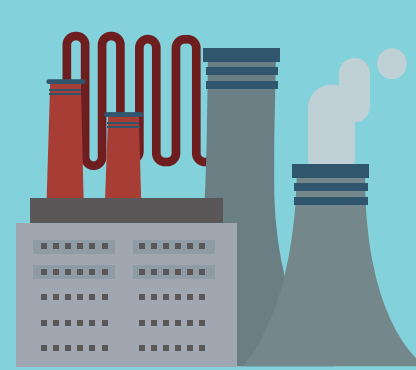

RENEWABLE ENERGY

Renewable Energy become major energy resources of the cities.

SCADA SYSTEMS

SCADA systems to improve water and electricity distribution systems.

RELOCATING INDUSTRIAL BUSINESS

Aid in relocating industrial heavy business like manufacturing and car maintenance away from business centers and popular public areas.

CONCLUSION

Kowloon East would need better communication, information, security renewable energy and a better ecosystem. We can all work to make Kowloon East and Hong Kong a better place to live in society. Let's start to make it possible!
