

Philippe Kimura-Thollander

Experience Designer

Seeking full-time employment, portfolio @ <http://philkt.me>

Current Projects ↗

Tachiyomi

An open-source manga and comic reading app for Android. Downloaded 30,000+ times and has 1,100+ stars on Github.

<http://github.com/inorichi/tachiyomi>

Smart Tokyo

A project for the 2020 Tokyo Olympics focusing on how Tokyo can become a better “smart city” for the games.

Working together with architects and city planners targeting the Sumida-ward as the redevelopment site.

Past Work ↗

NotifiVR

Designed prototypes of how to provide digital notifications of real world events to users in VR.

Tested four methods: a phone UI overlay on a controller, a telephone booth, popups spawning on the environment, and a gaze-controlled smartwatch. Results to be published in IEEE VR.

Macy's of the Future

Worked with Macy's on imagining the design of their stores 5 years into the future.

Created a concept combining the on-demand economy proliferated by Uber and Airbnb with their in-store associates to provide a personalized shopping experience.
